

Prof. Kam Tim WOO, Hong Kong University of Science and Technology

Director of Center for Global and Community Engagement
Associate Professor of Engineering Education
Academic Director of Undergraduate Core Education
Recipient of 2015 UGC Teaching Award

Professor Woo is currently an Associate Professor of Engineering Education at HKUST. He is interested in teaching embedded system design and interdisciplinary education through experiential learning. Through the experiential learning on robotics and STEM education, he empowers students in learning technical knowledge from robotics design competitions and applying their transferable skills into a train-the-trainer program for university students, community services, social services and STEM education for youth. He received the 2015 University Grants Committee (UGC) Teaching Award. One of his inclusive education projects was awarded as a Finalist Project of the 2018 GEDC Airbus Diversity Award.
